

Leverage Princeton Identity's uniquely flexible, future-proof authentication capabilities across your most critical applications. PI's complete solution supports all these modalities, plus dual authentication.

"Iris on the Move"

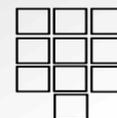

Face

Smart Card

Mobile Credential

Digital Keypad

BRING SECURITY AND CONVENIENCE TO YOUR KEY APPLICATIONS

Access Control

No other authentication solution delivers the same level of security as iris recognition. Combine that with built-in face, cards, mobile credentials, or PIN codes for the ultimate multifactor protection.

Time & Attendance

Integrate Identity Server with your time and attendance platform to create a fast, secure, and convenient interface for your employees, and a robust and reliable means for time tracking for your HR staff.

Point of Sale

Provide your customers with unmatched convenience. No more swiping, inserting and tapping of credit cards. Simply look at the reader and the transaction is securely completed.
