Touch-Free Biometric Solutions can Deliver
Security Requirements for the Cannabis & Medical Marijuana Industry

Cannabis and medical marijuana farm, grow facility and dispensary access points

1 Secure access to back offices and storage areas in your cannabis facility

2 Ensure security to the perimeter of the grow operation

3 Secure individual grow rooms

4 Princeton Identity's self enrollment platform makes it easy to manage access to employees and vendors.

The benefits of biometric solutions:

- ✓ Audit Log
- ✓ Safeguard Assets
- ✓ Protect Employees
- ✓ Eliminate PIN Code/Password Sharing
- ✓ Extend security to your perimeter to protect your product and facility
- ✓ May assist with the licensing application
- ✓ Eliminate security risks from lost or stolen cards

Process Flow

Enroll using CREateID application	Provision Access to Employee, Vendors & Visitors	IP Cameras to monitor face images	Optimize evidence reporting

90 percent — **Roughly 90% of financial and product loss in the marijuana industry can be attributed to employee theft. The other 10% of product loss results from either external theft or poor tracking.**
