

Access600e™

Convenient Authentication and High Volume Enrollment

The IOM Access600e is a fast, high-quality iris and face biometric capture device designed for integration into a variety of application solutions. The device (shown right) has a modern look with stylish curves and frameless design. Unlike traditional high-quality enrollment devices, the Access600e accommodates a wide range of subject heights. Simply look toward the device screen to collect iris and face samples during the enrollment process. Access600e has been integrated with passport scanners, fingerprint capture devices, badge readers, and other sensors to make complete application solutions.

Technology that Powers Freedom

- Rapid acquisition of enrollment quality face and iris images
- Web service interface for integration into complex applications
- Seamless interoperability with our Identity Management Platform and the IOM Access Control Product Suite™
- Integrates with external credentials to streamline enrollment
- Optional support for rapid trimodal enrollment
- Streamline passenger processing through immigration check points
- Secure base and facility access with large numbers of contractors and personnel
- Rapid enrollment of iris, face, and fingerprint for bases, large organizations, law enforcement, and booking stations

Specifications

Capabilities & Features	Access600e™
Modes	
Enrollment	✓
Verification	✓
Identification	✓
Biometric capture	
Simultaneous dual iris	✓
Color face	✓
Fingerprint	Optional with external device(s)
Performance	
Iris and face capture time	< 2 seconds
Color face capture	✓
Subject height range	4'7" to 7' (140cm to 215cm)
Size [⊖]	
Unit	5.5" x 22.75" x 4.75" (139.7 mm x 577.85 mm x 120.65 mm)
Weight [⊖]	
Unit	15.9 lbs (7.21 kg)
Product Specifications	
Operating temperature	10°C to 50°C or 50°F to 122°F
Storage temperature	-15°C to 55°C or 5°F to 130°F
Power	
Requirements	24 VDC, 80 Watts average, 240 Watts peak

[⊖] Not including power supply.

Princeton Identity is the identity management company powered by biometrics, making security more convenient, accurate, and reliable than ever before. Using iris recognition and other technology, Princeton Identity enables businesses, global organizations, and borders to simplify identity management, resulting in improved safety and protection. Formerly a division within SRI International, Princeton Identity spun out as an independent venture in August 2016.
